CarolinSantana07 is available.

By creating an account, you agree to the [Terms of Service](#). For more information about GitHub's privacy practices, see the [GitHub Privacy Statement](#). We'll occasionally send you account-related emails.

AT&T-MISELECCION 9..

github.com/join/welcome

Welcome to GitHub

We are glad you're here.

How many team members will be working with you?

This will help us guide you to the tools that are best suited for your projects.

Just me 2 - 5

5 - 10 10 - 20

20 - 50 50+

Are you a student or teacher?

Student Teacher

AT&T-MISELECCION 9..

github.com/join/recomen

Learn to ship software like a pro.

GitHub gives students free access to the best developer tools so they can learn by doing.

Free

- Unlimited public/private repositories
- 2,000 CI/CD minutes/month
Free for public repositories
- 500MB of Packages storage
Free for public repositories
- Community support

Continue for free

2) Crear un nuevo repositorio

github.com/new

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner * CarolinaSantana16 / Repository name * practica_web ✓

Great repository names are short and memorable. Need inspiration? How about *crispy-octo-spoon*?

Description (optional)

☒ Public
Anyone on the internet can see this repository. You choose who can commit.

☐ Private
You choose who can see and commit to this repository.

Initialize this repository with:

Skip this step if you're importing an existing repository.

☐ Add a README file
This is where you can write a long description for your project. [Learn more.](#)

Add .gitignore
Choose which files not to track from a list of templates. [Learn more.](#)

.gitignore template: None

Git-2.37.3-64-bit (1).exe

Quick setup — if you've done this kind of thing before

Set up in Desktop or **HTTPS** **SSH** `https://github.com/CarolinaSantana16/practica_web.git`

Get started by creating a new file or uploading an existing file. We recommend every repository include a README, LICENSE, and .gitignore.

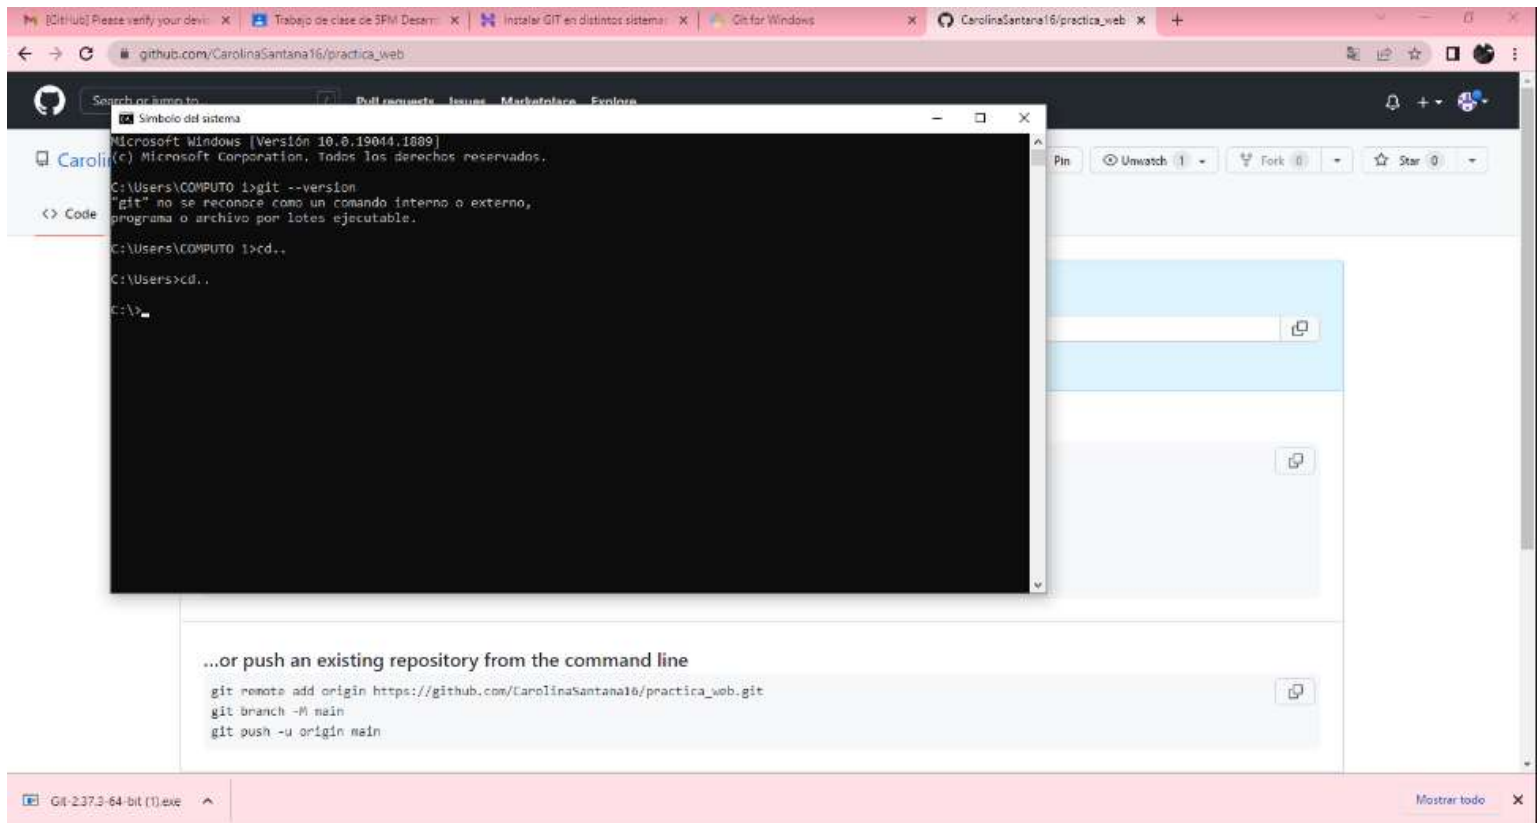

...or create a new repository on the command line

```
echo "# practica_web" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/CarolinaSantana16/practica_web.git
git push -u origin main
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/CarolinaSantana16/practica_web.git
git branch -M main
git push -u origin main
```

- 3) Instalar Git en la PC
- 4) Teclear la instrucción: git—versión

5) Agregar los dos archivos hello.php y hoy.ph

```
Símbolo del sistema
warning: You appear to have cloned an empty repository.

C:\>cd apli-web
